For all these occasions, baby blankets truly make wonderful gifts because they're both practical and adorable and can be easily customized for any child.

Babies love cuddling up to their favorite warm and comforting baby blankets, and there are so many different types! Whether you want to crochet a simply baby blanket or something more complicated, with lace, you have options. This collection of baby blanket crochet patterns has straightforward blankets that are worked flat and some that are worked in pieces, in crochet granny squares, and then joined together. Whatever the occasion, you'll find your perfect baby blanket crochet pattern here!

It doesn't matter if you're creating a baby blanket for a little boy or a little girl – many of these crochet patterns can be modified to fit any child's personality. Plus, as the child grows, they'll often save and treasure their crocheted blanket and keep it to remind them of their youth. They might even save it for their own little one down the road.
